# Stainless Steel Spigot

## Installation Manual

**PLEASE CAREFULLY REVIEW THESE INSTRUCTIONS AND WARRANTY  
INFORMATION BEFORE USE. GREENFIELD WATER IS NOT LIABLE FOR DAMAGE  
RESULTING FROM FAILURE TO FULLY ADHERE TO PROVIDED INSTRUCTIONS.**

**IMPORTANT! READ THIS ENTIRE BOOKLET BEFORE BEGINNING INSTALLATION!**

## **Disclaimer: Limitation of Liability for Installation-Related Leaks**

At Greenfield Water Solutions, we are committed to offering high-quality, reliable water filtration products that enhance your home's water quality. To ensure the best performance from your system, we ask that you carefully review the following information regarding installation and liability.

### **Installation Guidance**

The PureSync Home Whole House Filtration System is designed to be installed by a licensed plumbing professional to guarantee proper setup and optimal performance. While installation is straightforward, we strongly recommend professional installation to meet all necessary safety standards and plumbing codes. If you have any questions or need guidance, our team is available to assist you.

### **Customer Responsibility**

As the customer, you are responsible for ensuring that the system is properly installed. This includes confirming secure connections and ensuring compatibility with your existing plumbing setup. Greenfield Water Solutions cannot be held liable for leaks, flooding, water damage, or system malfunctions resulting from improper installation.

### **Consultation and Assistance**

Our experienced team is available to provide guidance and answer any installation-related questions. If your product requires additional expertise, we will help you determine the best course of action for the installation process.

### **Technical Support**

If you require technical support after installation, please visit our website and fill out the tech support form. Once submitted, a team member will assist you with any troubleshooting, questions, or concerns you may have about your system.

### **Warranty Information**

Our warranty covers defects in materials and workmanship under normal use. However, the warranty does not extend to issues caused by improper installation **(including over-tightening fittings, which may result in breakage over time)** misuse, or failure to follow proper installation procedures. To see our full policies, please visit our website.

By purchasing from Greenfield Water Solutions, you acknowledge and agree to the terms outlined in this limitation of liability. We appreciate your understanding and look forward to providing you with clean, filtered water through our reliable systems.

For installation or operation questions please call or text **208-462-0626**

**Included in box:**

- Stainless Steel Spigot
- Mounting Hardware
- Silicone Washer
- Plastic Washer
- Lock Nut
- ¼" Compression Fitting

**Step-by-step Instructions:****Choose a Mounting Location**

Select a location on your sink or countertop where the spigot will be installed. Ensure there is enough space underneath for the lock nut.

**Drill a Hole (if needed)**

If your sink or countertop doesn't have a predrilled hole, use a ½" drill bit to create one.

**Insert Spigot**

Place the silicone washer on the spigot stem and insert the stem through the hole from the top.

**Secure Spigot**

Underneath the sink, slide on the plastic washer, then thread the lock nut onto the spigot stem.

Tighten the nut until the spigot is secure and upright.

**Attach Tubing**

Connect your ¼" tubing to the compression fitting at the base of the spigot. Tighten securely.

**Check for Leaks**

Turn on your system and check all connections to ensure there are no leaks.
